

Quality & Environmental Policy

Sackmaker J&HM Dickson Ltd recognises, accepts and is committed to complying with the statutory obligations placed upon it by Regional, National and European legislation and regulation. As an organisation we are firmly committed to continual improvements in quality and environmental performance. By achieving high operational and quality standards, above the statutory requirements wherever reasonable and practical, we will strive to build enduring relationships with our customers.

Sackmaker are totally committed to Quality, the care of the Environment & and the prevention of pollution. Specifically the company will:

- Set objectives and targets for quality and environmental management and review its performance against these targets annually.
- Provide products and services of the highest possible quality standard at the lowest environmental cost to our customers.
- Actively encourage customer understanding that quality materials last longer and to promote the cost & environmental benefits of re useable products
- Continually focus on the evolving requirements of our customers so we consistently meet or exceed our customer's expectations on product quality, performance, time delivery and service
- Assess the environmental sensitivity of its processes and the impact of operations on local, regional and global environments.
- Manage energy and water wisely and provide adequate resources to comply fully with applicable environmental legislation and consents.
- Limit waste generation, discharge and emissions and handle waste in a responsible manner, recycling materials wherever possible to minimise the need for disposal by landfill.
- Aim to prevent pollution by educating staff so they carry out their activities effectively and efficiently in an environmentally responsible manner and by maintaining emergency plans.
- Make continuous efforts to minimise the environmental effects of our operations with regard to the economically viable application of best available technology.
- Communicate this policy to all our employees and interested parties.
- Train staff to initiate corrective actions on quality and environmental matters, issues and concerns as appropriate
- Review this policy annually to ensure it remains appropriate to Sackmaker and make the policy available on request.

Alan Dickson
Managing Director
